

WF-HD91

Floor thickness detector

APPLICATION FIELD

Used for concrete structures (floors, etc.) or other non-magnetic material thickness measurements

STANDARDS COMPLICANT

GB 50367-2013

GB 50330-2013

FEATURES

- ✦ Real-time thickness detection, real-time display of the position of the transmitting probe, convenient direction indication
- ✦ Easy to operate
- ✦ Display measured values in real time and automatically lock the true thickness
- ✦ Equipped with tires to reduce instrument wear
- ✦ Large storage, 1000 components or 22 Million point
- ✦ USB data transfer, which can upload stored data to the computer through the USB cable;
- ✦ PC professional data analysis software
- ✦ 2.8-inch high-resolution color LCD screen (320x240 pixels)
- ✦ Small in size, light in weight and easy to carry.

TECHNICAL PARAMETER

Function	Parameter
Signal Range	0.2~1.5m
Precision	20~350mm ±1mm 351~600mm ±2mm 601~900mm ±3mm
Storage	1000 components for 22million point
Main body battery	Continue 24hours
Sensor body battery	Continue 64hours
